Did you know you can export your profile to other festivals such as the OMFA Festival in your Linked Profiles screen? Teachers and Parents must export their profiles before Entrants can export theirs. If you have already made a profile with another festival, you can also ask our team to link them for you, making switching between festivals easy. Use our Support system to make that request!

- Fill out your child's information
- This is where you will fill out your teacher's ENT# so that their student's profiles will be linked to theirs. Your teacher will have their number, or you can email

lacombemusicfestival@gmail.com if you need help finding it.

- Note that the child's email can be the same as yours, but the password must be different. And if you have multiple children, each password will be different. (I suggest putting a 1 after your password). You can sign your child up for things under the parent account, and likely won't ever have to log in to their account anyway.

You are attempting to create a Festival Profile for a child that would be linked to you. They will still be able to log into their own Festival Profile separate from you using their Profile ID or Email Address and their unique password which you identify here. Once created, you will be able to register this child as an Individual Entrant through your own profile.

Please note that your child may have the same email address as you, but *must have a different password than anyone else with the same email address*, and one that your child will remember so that they can log into their profile themselves. You will also need to know your child's Teacher ID.
